About Me

I'm Full Stack Developer with 4 years of experience in software development and web design. Specializing in Frontend technologies including React and Next, and familiar with Angular. Proficient in Backend development using Go (Golang) and the Gin framework & python, Django and FastAPI. Knowledgeable in API design concepts and both SQL and NoSQL databases. Able to work in cross-functional teams and manage complex projects using Agile methodologies. Possesses strong problem-solving and analytical thinking skills. Seeking challenging opportunities to improve skills and contribute to innovative projects. Committed to continuous learning and enhancing technical knowledge.
